PALO ALTO, Calif., May 23, 2017 /PRNewswire/ -- Ooma, Inc. (NYSE: OOMA), a smart communications platform for small businesses and consumers, today released financial results for the first quarter ended April 30, 2017.

#### First Quarter Fiscal 2018 Financial Highlights:

- **Revenue**: Total revenue was \$27.6 million, up 13% year-over-year. - **Net Loss**: GAAP net loss was \$3.4 million, or \$0.19 per basic and diluted share, compared to GAAP net loss of \$4.0 million, or \$0.23 per basic and diluted share, in the first quarter of fiscal 2017. "We are progressing well on our strategy to grow Ooma Office which delivered strong results and we continue to make significant advances on Office, including launching service for WeWork in France," said Eric Stang, chief executive officer of Ooma. "Our subscription services revenue for Office and Telo combined grew 20% in Q1 versus a year ago, however, we are disappointed that revenue from both Business Promoter and Talkatone declined in the quarter. We are behind on some key residential initiatives for the year and are taking steps to improve our execution. We believe our core business is fundamentally strong and we have a great opportunity ahead."

#### Recent Business Highlights:

- Announced the expansion of Ooma Office into France as a provider of cloud-based phone service for WeWork.
- Won PCMag's Business Choice Awards for Best VoIP Solution for an unprecedented fourth consecutive year.

#### Non-GAAP Financial Measures

In addition to disclosing financial measures prepared in accordance with U.S. generally accepted accounting principles (GAAP), this press release and the accompanying tables contain certain non-GAAP financial measures, including: non-GAAP net loss, non-GAAP net loss per share, non-GAAP gross profit and gross margin, non-GAAP operating loss, and Adjusted EBITDA. Adjusted EBITDA represents the net loss before interest and other income, depreciation and amortization and other non-GAAP expenses.

These non-GAAP financial measures exclude non-cash stock-based compensation expense and related taxes and amortization of intangibles.

These non-GAAP financial measures are presented to provide investors with additional information regarding our financial results and core business operations. Ooma considers these non-GAAP financial measures to be useful measures of the operating performance of the company, because they contain adjustments for unusual events or factors that do not directly affect what management considers to be Ooma's core operating performance, and are used by the company's management for that purpose. Management also believes that these non-GAAP financial measures allow for a better evaluation of the company's performance by facilitating a meaningful comparison of the company's core operating results in a given period to those in prior and future periods. In addition, investors often use similar measures to evaluate the operating performance of a company.

Non-GAAP financial measures are presented for supplemental informational purposes only to aid an understanding of the company's operating results. The non-GAAP financial measures should not be considered a substitute for financial information presented in accordance with GAAP, and may be different from non-GAAP financial measures presented by other companies. A limitation of the non-GAAP financial measures presented is that the adjustments relate to items that the company generally expects to continue to recognize. The adjustment of these items should not be construed as an inference that the adjusted gains or expenses are unusual, infrequent or non-recurring. Therefore, both GAAP financial measures of Ooma's financial performance and the respective non-GAAP measures should be considered together. Please see the reconciliation of non-GAAP financial measures to the most directly comparable GAAP measure in the tables below.
