Investor Presentation

December 10, 2024

Safe Harbor Statement

This presentation contains forward-looking statements. In particular, statements regarding future economic performance, finances, and expectations and objectives of management constitute forward-looking statements. Forward-looking statements can be identified by the fact that they do not relate strictly to historical facts and generally contain words such as “believes”, “expects”, “may”, “will”, “should”, “seeks”, “approximately”, “intends”, “plans”, “estimates”, “anticipates”, and other expressions that are predictions of or indicate future events and trends and that do not relate to historical matters. Although the forward-looking statements contained in this presentation are based upon information available at the time the statements are made and reflect management's good faith beliefs, forward-looking statements inherently involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements to differ materially from anticipated future results. Important factors that could cause actual results to differ materially from expectations include, among others: our inability to attract new customers on a cost-effective basis; our inability to retain customers; our inability to realize expected returns from investments made in connection with our international operations; our inability to market and sell new products and services, including Ooma AirDial; intense competition; our reliance on retailers and reseller partnerships to sell our products; our reliance on vendors to manufacture the on-premise appliances and end-point devices we sell; our reliance on third parties for our network connectivity and co-location facilities; our reliance on third parties for some of our software development, quality assurance and operations; our reliance on third parties to provide the majority of our customer service and support representatives; interruptions to our service; and our inability to achieve the anticipated effect on our business as a result of our acquisitions. You should not place undue reliance on these forward-looking statements, which speak only as of the date hereof. We do not undertake to update or revise any forward-looking statements after they are made, whether as a result of new information, future events, or otherwise, except as required by applicable law.

The forward-looking statements contained in this presentation are also subject to other risks and uncertainties, including those more fully described in our filings which we make with the Securities and Exchange Commission, from time to time, including the risk factors contained in our Quarterly Report on form 10-Q for the quarter ended October 31, 2024, filed with the SEC on December 10, 2024. The forward-looking statements in this presentation are based on information available to Ooma as of the date hereof, and Ooma disclaims any obligation to update any forward-looking statements, except as required by law.
