Values exclude Business Promoter

1. Core Users include home user accounts and office user extensions
2. Premium Users are our subscribers to Ooma Office, Ooma premier service and other premium services.
3. Annualized Exit Recurring Revenue or AERR that is calculated by dividing our recurring revenue (which is defined as total subscription and service revenue, excluding Talkatone and Business Promoter revenue) for a quarter by the average of the number of core users at the beginning and end of that quarter, which is then annualized by multiplying by four. We then multiply the result by the number of core users at the end of that quarter.
4. Our annual net dollar retention rate is the percentage year-over-year change in our AERR per core user, which is then adjusted by factoring in the percentage of our core users we have retained during the same period.
5. Average Revenue Per Core User (monthly) is calculated by dividing AERR by the number of core users which is then divided by twelve.
